# Mark Vergel Banguis

## *Full-stack Developer*

in BanguisMV

Pyakz

✉ banguismv.dev@gmail.com

📍 Surigao, Philippines

Experienced in **Full-stack Development** and offering skills **JavaScript** Technologies such as **React, Node, MongoDB, GraphQL** and some notable libraries needed

## 💼 EXPERIENCE

### Lead Full-stack Developer
*Chromelot* 🔗
- Led end-to-end development from frontend, backend to deployment.
- Leveraged NestJS, MongoDB, and Swagger UI for backend development.
- Implemented coding standards with ESLint and GitHub Actions while conducting rigorous integration testing.
- Utilized React Server Components for the majority of pages, enhancing performance and scalability.

**Apr 2023 – present**
Dallas, Texas

### Front-end Developer
*Mobii Inc* 🔗
- Developed admin dashboard with Next.js 13, React Final Form, Chakra UI, and React Query.
- Engaged in my first-ever structured daily stand-up meeting, effectively collaborating with non-technical team members, gaining valuable experience.

**Feb 2023 – Apr 2023**
Remote, Philippines

### Full-stack Developer
*Fiddle Inc* 🔗
- Our team was outsourced to collaborate with Fiddle.
- Primarily focused on bug fixing and code standard maintenance.
- Converted large JavaScript codebases to TypeScript.
- Developed reusable components managed in Storybook, distributed via NPM.
- Implemented Kafka pub/sub across services.

**Nov 2021 – Dec 2022**
Remote, USA

### Front-end Developer
*Xendit* 🔗
- Our team was outsourced to collaborate with Xendit.
- Developed the front-end of a specific feature using React and Xendit's custom UI library.
- Enforced company's testing and code quality standards.
- Received guidance from senior developers to navigate Xendit's extensive codebase effectively.

**Jul 2021 – Dec 2021**
Remote, Philippines

### Trainee
*Cauld & Clark IT Solutions* 🔗
- Developed web and mobile apps with React (Web/Native), GraphQL, Kafka, NestJS, and related tech, with proficiency in Go.
- Progressed from trainee to full-stack developer, consistently delivering quality solutions across various projects and clients.

**Mar 2021 – Jul 2021**
Remote, Philippines

## ⚛ TECHNOLOGIES

### Backend Development
*Node - Go - NestJS - MongoDB - Postgres - GraphQL - REST - Kafka - Redis*

### Frontend Development
*React - Redux - Apollo - ChakraUI - MantineUI - NextJS14*

### Mobile App Development
*React Native ( Expo ) - NativeBase*

### Tools
*Github - VSCode - Mac - Docker - XCode - ChatGPT*
